### DETAILED ACTION

The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414.

- The oath/declaration is defective for failing to properly identify all of the inventors (both original & additional) by full name, residence, and mailing address. The listing previously provided is improper and does not include a page number nor a reference to the page listing the names of the added inventorship. All assignees consenting to the reissue must establish their ownership interest in the patent by filing in the reissue application a submission in accordance with the provisions of §37 CFR 3.73(b).
- The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The applicant has submitted the language "Incorporate the limitation of said second perforations being "longer than said first perforations" into claim 1" which is more of an instruction of how to amend, this is considered invalid.

Claims 1-26 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

Art Unit: 3749

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.
